MY PORTFOLIO : [HTTPS://SITES.GOOGLE.COM/VIEW/LAINASHIVOLOPORTFOLIO?USP=SHARING](https://sites.google.com/view/lainashivoloportfolio?usp=sharing)

ABOUT ME

I have recently completed my Cybersecurity studies at the Namibia University of Science and Technology and am looking for an internship to learn, grow, and gain practical experience in the field within a professional digital workplace. I am also pursuing a Full Stack Development certification with CodeBlossom to broaden my technical capabilities.

EDUCATION

Namibia University of science and Technology 2023 - 2025

Bachelor of Computer Science

- Major in Cybersecurity
- Completed all course work - internship pending for graduation

Code Blossom 2025- present

Fullstack Development Certification Program

- Front-end developer | Java | JavaScript | HTML | CSS

PROJECTS

Intrusion Prevention System (IPS) Deployment: OSSEC Implementation

- Worked within a five-person team to **design and implement a host-based intrusion prevention system using OSSEC**
- Deployed and configured OSSEC Manager and Agents on Debian servers to monitor system activity
- Simulated real-time FTP brute-force attacks from a Windows client to test system defenses
- Successfully demonstrated automated threat detection and active response capabilities, mitigating simulated attacks effectively
- Documented incident response procedures and system configurations for future reference

TECHNICAL SKILLS

Operating system	Threat Detection & Monitoring	Security Tools
• Windows • Kali Linux • Linux (Ubuntu, Debian)	• Network Monitoring • Intrusion prevention • Vulnerability Assessment • Threat Detection	• Nessus • Nmap • OSSEC • Burp suite

ADDITIONAL INFORMATION

- **Languages:** English, Afrikaans, Oshiwambo(Native), Mandarin(Beginner level)
- **Certifications:** Work Readiness course (Nust) | Cisco Networking Academy - Junior Cybersecurity Analyst Career Path (2025) | Certified Social Engineering Defense Practitioner (CSEDP) — The SecOps Group (2026) Achieved Merit |
- **Activities:** Nust Cybersecurity Team (Member) **2025**

LAINA SHIVOLO

CYBERSECURITY ENTRY-LEVEL | ASPIRING DEVELOPER | SOC

CAREER OBJECTIVE

Passionate and dedicated **cybersecurity** student at the Namibia University of Science and Technology with a strong academic foundation in network security, cyber defense, intrusion detection, cryptography, and digital forensics fundamentals. Gained hands-on experience through practical labs and simulations focused on real-world threat scenarios and security operations. Currently pursuing a **Full Stack Development certification** with **Code Blossom**, a non-profit organization empowering women in technology.

PROJECTS

Completed Practical exercises simulating threat detection and incident handling . Applied security concepts to real-world case studies. Built Baseline technical knowledge that supported my transition into SOC and security operations roles.

Intrusion Prevention System (IPS) Deployment: OSSEC Implementation

- Worked within a five-person team to **design and implement a host-based intrusion prevention system using OSSEC**
- Deployed and configured OSSEC Manager and Agents on Debian servers to monitor system activity
- Simulated real-time FTP brute-force attacks from a Windows client to test system defenses
- Successfully demonstrated automated threat detection and active response capabilities, mitigating simulated attacks effectively
- Documented incident response procedures and system configurations for future reference

Network Security Configuration & Monitoring Lab — Academic Projects

- Configured firewalls, IDS/IPS, and VPN services to simulate a secure enterprise network environment.
- Monitored network traffic and analyzed alerts to detect suspicious activity and potential intrusions.
- Applied network security best practices including access control and traffic filtering.

CERTIFICATIONS

1. **Certified Social Engineering Defense Practitioner (CSEDP)** — The SecOps Group (2026)

Achieved a Merit

- This Certificate Demonstrate my knowledge of social engineering attack techniques, phishing detection, and human-focused cybersecurity defense strategies.

2. **Certificate of Junior Cybersecurity Analyst career path Exam** – Cisco Networking Academy Program (2025)

3. **Work Integrated Learning (WiL) Readiness Programme** – Namibia University of Science and Technology (2025)

4. **Practical Fundamentals Certification** — TCM Security (2026)

- Applied hands-on ethical hacking techniques, including reconnaissance, scanning, and vulnerability identification . Worked with tools such as Nmap and Linux-based environments. Built foundational knowledge in offensive security and SOC Analyst workflows.

5. **SOC Analyst Tier 1** – CyberDefendrs (In Progress)
